

## On the Subject of Mirrors

*Were you an orphan girl or a different species girl?*

- Initially, this module contains an empty mirror. When the module is first selected, a ghost will write a word on the mirror.
- Note the handwriting (font) that this word is written in. The word will stay visible for a few seconds, then it will fade out.
- Three new words will then be written. Only one of them will have the same handwriting as the original ghost, the other two will have similar yet different handwritings.
- Find the new word written by the original ghost in one of the tables below, and follow the instruction corresponding to that table.

**If the word is in this table, press the word written by the original ghost:**
