

On the Subject of Patterns

Patterns are all around us. Whether we use them actively in our daily lives or create them ourselves out of fear of breaking routine, you can't escape their enticing security.

- A series of five cards will be shown on the module.
- This series of cards is a subsection of the grid found below. However, the cards are jumbled up. Find the order of the cards and press them in reading order according to the table.
- Subsets on the modules can only go in orthogonal directions. If there are identical cards, either may be used for a given press.
